

CHAPTER 33-03-08
APPROVAL OF PLANS AND SPECIFICATIONS PRIOR TO CONSTRUCTION
OF WATER WORKS AND SEWERAGE SYSTEMS

Section

33-03-08-01	Plans and Specifications Required
33-03-08-02	Submission of Plans and Specifications for Review
33-03-08-03	Approval of Plans and Specifications
33-03-08-04	Approved Plans and Specifications Required

33-03-08-01. Plans and specifications required. It is required that plans and specifications be prepared for all water works and sewerage systems contemplated for use by the general public. It is further required that such plans and specifications, together with other pertinent information, be submitted to the state health officer for review prior to construction of the facility or facilities.

History: Amended effective February 1, 1993.

General Authority: NDCC 23-01-03

Law Implemented: NDCC 23-01-03

33-03-08-02. Submission of plans and specifications for review. Plans and specifications shall be submitted to the state health officer in accordance with such directions as such officer may promulgate.

General Authority: NDCC 23-01-03

Law Implemented: NDCC 23-01-03

33-03-08-03. Approval of plans and specifications. Plans and specifications reviewed by the state health officer will be approved only when such plans and specifications fully meet and comply with existing statutes and sanitary standards established by the state health officer. Plans and specifications upon which approval is being withheld will be returned with the reasons for withholding approval.

General Authority: NDCC 23-01-03

Law Implemented: NDCC 23-01-03

33-03-08-04. Approved plans and specifications required. Water works and sewerage systems constructed for use by the general public must be constructed in accordance with plans and specifications approved by the state health officer.

History: Amended effective February 1, 1993.

General Authority: NDCC 23-01-03

Law Implemented: NDCC 23-01-03
